FYI -

The new Valadao-Nunes "drought bill" goes to the House floor Monday. OMB is recommending a Veto (their SAP just issued). Fishing groups and others are circulating their own opposition letters. Attached is a letter from a very broad coalition of refuge, fishing and conservation organizations: it is still being circulated for additional co-signers but the text and initial list of co-sponsors is public. (See attached.)

Hi John and James – I thought you would be interested in this letter that we are going to send to the House on Monday. We are still gathering signers so if we get any more we will do an updated version Monday.

Cheers MB
